Those in the town are sceneral housed, whilst those outside are engaged in the delightful recreation of lelling trees in the primeral forests to obtain theber the construct buts. The remaining regiment, Collistion's, is encamped at Warm Springs. The whole brigade are expected to remain at their present quarters during the entire winter. They have encauntered the greatest hardships in the service in Western Vargilla—no treops outside of that section of country have ansfered half as much, and it was hoped that the government would assign them some other ard more agreeable quarters for the winter. But it has been deemed proper to retain them there. We have no doubt they will acquisees cheeffully, and dicharge their duties faithfully, hard though the decision he. They will have but it the clee to do than take care of thomseives, and it is not likely they will be very neglectful of this. UNITED STATES INFANTRY TACTICS: Sr. CHARLES, Mr. Dec. 21.

A preconcerted movement was made last night by sece simists along the North Missouri Railread and by releas recently returned from Price's army, by which about 100 miles of the road was nearly destroyed, or at least rendered useless. Commencing eight miles anoth of Hudson, they harned the bridges, woodsheds, and water tanks, and tore up the rails for miles. They also destroyed the telegraph line. It is not known how many were concerned in this villations work, but there is no doubt that it was a preconcerted plan on the part of citizens along the road.
